

Field Photo Report, March 2-15th 2015 - Montenegro, Croatia, Slovenia

by Frank Deschandol

All pictures © F. Deschandol & Ph. Sabine

A trip with my car initially dedicated to northern Greece, mainly for amphibians...Unfortunately because of troubles with my passeport, I was stuck in Montenegro for some days and after getting some infos from the french embassy, I had to go back to France... So no luck during this trip, but I managed to find some nice animals on several known spots, without trying hard...

***** SLOVENIA *****
